- d. As soon as both competitors have both knees on the floor or one of the contestants is sitting or lying on the floor the match continues in Phase 3.
- e. The competitors can change between the different phases, but they must be active in all phases of the match.
- f. If a competitor only rushes towards the opponent without making a technical action or if he is dangerous to himself ("Mubobi"), a technical penalty will be given and the match will continue in phase 1.

- d. After “Sonomama” the competitors continue exactly in the same position they were, when the Command was announced. To start again the match, the MR announces “Yo-shi”.

## Section 12 Match Points

Scores must be marked by most of the referees, therefore at least two referees. If the referees give a score different from each other, the intermediate score prevails. If one of the referees doesn't see an action, the lower of the two remaining scores prevails.

- a. The following points can be given in **Phase 1**:  
(Punches, strikes and kicks must be applied Good Form, Sporting Attitude, Vigorous Application, Zanshin, Good Timing, and Correct Distance)
1. A punch or strike to the head or body (Wazari, 1 point)
  2. A kick to the head or body (Ippon, 2 points)

*A technique with —**Good Form** is said to have characteristics conferring probable effectiveness within the framework of traditional Ju-Jitsu / Karate concepts.*

***Sporting Attitude** is a component of good form and refers to a non-malicious attitude of great concentration obvious during delivery of the scoring technique.*

***Vigorous Application** defines the power and speed of the technique and the palpable will for it to succeed.*

***Zanshin is** that criterion most often missed when a score is assessed. It is the state of continued commitment in which the contestant maintains total concentration, observation, and awareness of the opponent's potentiality to counter-attack. He does not turn his face away during delivery of the technique and remains facing the opponent afterwards.*

***Good Timing** means delivering a technique when it will have the greatest potential effect.*

**Correct Distance** similarly means delivering a technique at the precise distance where it will have the greatest potential effect. Thus, if the technique is delivered on an opponent who is rapidly moving away, the potential effect of that blow is reduced.

b. The following points can be given in **Phase 2:**

(Throws, take downs, locks and chokes)

1. A throw or takedown with speed, power, and control in which one or both of Uke's feet do not leave the ground. (Wazari, 1 point)
2. Chokes and locks in case the contestant cannot clap by himself and the MR must stop the fight by announcing "Matte". (Ippon, 2 points)
3. Chokes and locks with tapping. (Ippon, 2 points)
4. A throw with speed, power, and control in which both of the Uke's feet leave the ground, and they land mostly on their back. (Ippon, 2 points)

**Speed** in a throw or takedown refers to the proper timing of the actions of the Tori so that the throw has the most effectiveness.

**Power** in a throw or takedown refers to the vigorous application of the throw in a manner that prevents a counter action and exhibits real impact.

**Control** in a throw or takedown refers to executing the technique in a safe manner that does not cause injury to your opponent nor preclude them from landing in a safe manner.

\*\*\*\*When a fall (throw) is rolled without REAL IMPACT, it is not possible to consider it Ni-hon! When two opponents simply fall to the ground and with no real distinction of who was in control of the throw, no point shall be awarded.

c. The following points can be given in **Phase 3:**

(Floor techniques, locks and strangulations)

1. An efficient control announced as "Osae-komi" lasting 10 seconds. (Wazari 1 point)
2. An efficient control announced as "Osae-komi" lasting 15 seconds. (Ippon, 2 points)
  - a. The controlled person is lying on the floor.
  - b. The legs of Tori are free.
  - c. Uke is well encumbered and can't move freely.
  - d. Tori has a good control over uke.

\* Osae-Komi time continues, even when:

- a. The controlled person is able to catch a leg of Tori.
- b. The controlled person can turn on the side or back.
- c. If both bodies are completely outside the contest area, the Osae-Komi time will be stopped by "Toketa".
- d. Sankaku-Jime must be applied with one arm inside the crossed legs.
- e. Sankaku-jime and Juji-gatame count as an

Osae-komi as long as there is a full control of Uke's upper body.

\* An efficient control started within the match time can continue until termination (even after expiration of the match time). If the control is broken before the 15 seconds the MR shall announce "Toketa".

3. Chokes and locks in case the competitor can't clap by himself and the MR must stop the match by announcing "Matte". (Ippon, 3 points)

4. During osae-komi chokes and locks with tapping. (Ippon, 3 points)

### Section 13 Penalties

- a. Penalties must be given by the majority of the referees.
- b. "Light forbidden acts" will be punished by "Shido" and the opponent gets 1 Point. The following actions count as light forbidden acts:
  1. If one or both competitors show passivity or minor technical infringements. <sup>(2)</sup>
  2. "Mubobi"
  3. To deliberately go outside the contest area with both feet.
  4. To purposely push the opponent outside the contest area.
  5. To purposely deliver kicks or punches after contact between competitors is made.
  6. To make any further actions after "Matte" or "Sonomama" has been announced.
  7. To deliver punches, strikes and kicks to the legs.

  12. If a competitor comes unprepared to the mat and delays the contest. <sup>(3)</sup>
  13. If a contestant is wasting time on purpose (by arranging the Gi, by taking the belt off, taking off the gloves etc.)
- c. A "**Forbidden Acts**" will be punished by "**Chui**" and the opponent gets **2 Points**:
  1. To make attacks like kicking, pushing, punching, or hitting the body of the opponent in a hard, uncontrolled action. <sup>(4)</sup>

---

<sup>2</sup> Passivity Phase 1: One or both do not show any activity with the aim to get points.  
 One or both contestants go directly to Phase 2 or 3  
 One or both contestants do not show combinations before going into the next part.  
 If one or both do not show any activity with the aim to get points.  
 If one or both competitors only blocks the attacks or the movement of the opponent or both contestant goes down on the floor on purpose.  
 If the competitors refuse to make contact with grips but are active in Phase 1.  
 A competitor makes a false attack by throwing itself on the ground purposely without technique to break the contact

Passivity Phase 2: If one or both do not show any activity with the aim to get points.  
 If a competitor is repeatedly passivity after penalties, he can be punished by Chui (Disregard MR instructions)

<sup>3</sup> The punishment will be given after the standing bow before the match will be started by "Hajime"

<sup>4</sup> A technique which is stopped by the opponents body / head instead of the attackers control of the technique is an example of c1. A technique which causes the head to move due to contact is an example for c1.  
 Techniques that cause bleeding (but not due to re-opening of an existing wound) must be evaluated by the MR and SRs to determine if it a penalty per c1 (Forbidden Act) or e1 (Heavy Forbidden Act) based on the situation.

2. To throw the opponent from the fighting area to the area outside the safety area.
  3. To disregard the MR's instructions.
  4. To make unnecessary calls, remarks or gestures to the opponent, referees, the secretariat or to anyone else.
  5. To make an uncontrolled action, such as roundhouse punches and kicks, which are not stopped even if they miss the opponent, and after a throwing-technique the opponent is not able to continue immediately.
  6. To make uncontrolled punches or kicks towards the head.
- d. In case of two "Forbidden Acts" the match will be lost by "Hansoku-make".
  - e. The following actions count as a "**Heavy Forbidden Act**":
    1. To apply any action which may injure the opponent.
    2. To throw or try to throw the opponent with any lock or choke. <sup>(5)</sup>
    3. To make any locks on the neck or spinal column.
    4. To make any twisted locks at the knee or foot.
  - f. The first time a competitor makes a "Heavy Forbidden" act he will be punished by "Hansoku-make". He loses the match with 0 points and the opponent gets 14 points or the score he already achieved, if higher than 14.
  - g. The second time a competitor loses by Hansoku-make in a tournament, he is expelled from the rest of the tournament.
  - h. If a competitor shows unsportsmanlike behavior after a match <sup>(6)</sup>, the referee crew on the mat unanimously decide that the competitor should be expelled from the rest of the tournament. They will inform the head-referee of their decision and then ask the responsible of the tournament to make the official announcement. The expelled contestant loses all matches he had already won, including the medals.
  - i. If both contestants will be punished by Hansoku-make, the match will be repeated.

## Section 14 Winning of the Match

- a. A competitor may win the match before the end of the match time, if one of the contestants achieved at least one Ippon - 2 points in each of the two phases. In this case the losing competitor gets 0 points and the winner gets the score he already achieved in the match.
- b. After the match time has expired the competitor who has the most points at the end of the match will be the winner.
- c. If the competitors have equal points at the end of the match, the competitor who achieved the greatest number of parts with one or more ippons wins the match.

---

Techniques to the head that merely touch or are within .5 inch (5cm) or 1.0 inch (10cm) for children are valid scoring techniques. Contact to the body must be controlled, non-ijurious contact. Otherwise, it may be construed as hard, uncontrolled contact per c1.

Other criterion for hard or uncontrolled contact that needs to be looked at is if hard contact occurred because the opponent moved into the technique. In this case, there was no intent by the attacker to induce hard contact, and may be even a penalty of Mubobi to the opponent, if there is precedence of failure to protect one's self or reckless behavior.

<sup>5</sup> A throwing technique in combination with a lock or choke is not allowed. (e.g. Kote-Geashi counts as a take-down technique)

<sup>6</sup> After a contest means for the whole tournament.

- d. If the score is equal both in total points and in number of different phases in which Ippons were achieved, the competitor who achieved totally more Ippons wins the match.
- e. If the score is equal both in total points, in number of different parts with Ippon score and in number of Ippons, there will be an extra round of 2 minutes until the match is settled. There is a break of 1 minute between the additional rounds. <sup>(7)</sup> The procedure may be repeated. The scores and penalties from the initial round are carried forward into the extra round.

### **Section 15 Walk-over and Withdrawal**

- a. The decision “Fusen-gachi” (win by walk-over) shall be given by the MR to any contestant whose opponent does not appear for his match. The winner gets 14 points, after his opponent has been called for 3 times over at least 3 minutes.
- b. The decision “Kiken-gachi” (win by withdrawal) shall be given by the MR to the contestant whose opponent withdraws from the competition during the match. In this case the withdrawer gets 0 points and the winner gets 14 points or the score he already achieved, if higher than 14.

### **Section 16 Injury, Illness or Accident**

- a. In every case when a match is stopped because of injury on either or both competitors, the MR may permit maximum time of 2 minutes to the injured competitor(s) for the rest. The total rest per contestant in each match shall be 2 minutes.
- b. The injury-time starts on command of the MR.
- c. If one of the competitors is unable to continue, the MR and the SRs will make a decision after the following clauses:
  - 1. When the cause of the injury is attributed to the injured competitor, the injured contestant shall lose the match with 0 points and the opponent shall get 14 points or the score he already achieved.
  - 2. When the cause of the injury is attributed to the uninjured competitor, the uninjured contestant shall lose the match with 0 points and the opponent shall get 14 points or the score he already achieved.
  - 3. When it is impossible to attribute the cause of the injury to either competitor, the uninjured competitor shall win the match with 14 points or the score they already achieved, and the injured competitor shall loose with 0 points.
- d. When one competitor is taken ill during the contest and he is unable to continue, he shall lose the contest with 0 points and the opponent shall get 14 points or the score already achieved.
- e. The official doctor is to decide whether the injured competitor may continue or not.
- f. If a competitor loses consciousness or if they blackout, the match must be stopped, and the competitor will be expelled from the rest of the tournament.
